## A message from Our Team

At Travel World Safaris, we believe in experiences that go beyond the guidebook. This magazine was created with love and curiosity, a collection of Africa's most unique encounters, woven together from the lands we know and cherish. From the wild heart of Zimbabwe to the turquoise whispers of the Indian Ocean islands, we invite you to explore the beauty, spirit, and rhythm of this incredible region.

Each page has been carefully curated with you in mind, the dreamer, the adventurer, the soul in search of something real. Whether it's walking with lions in Antelope Park, gliding across the Okavango in a mokoro, watching whales breach in Sainte Marie, or quad biking through Namibia's rolling sands, every experience here is about connection, to nature, to people, and to yourself.

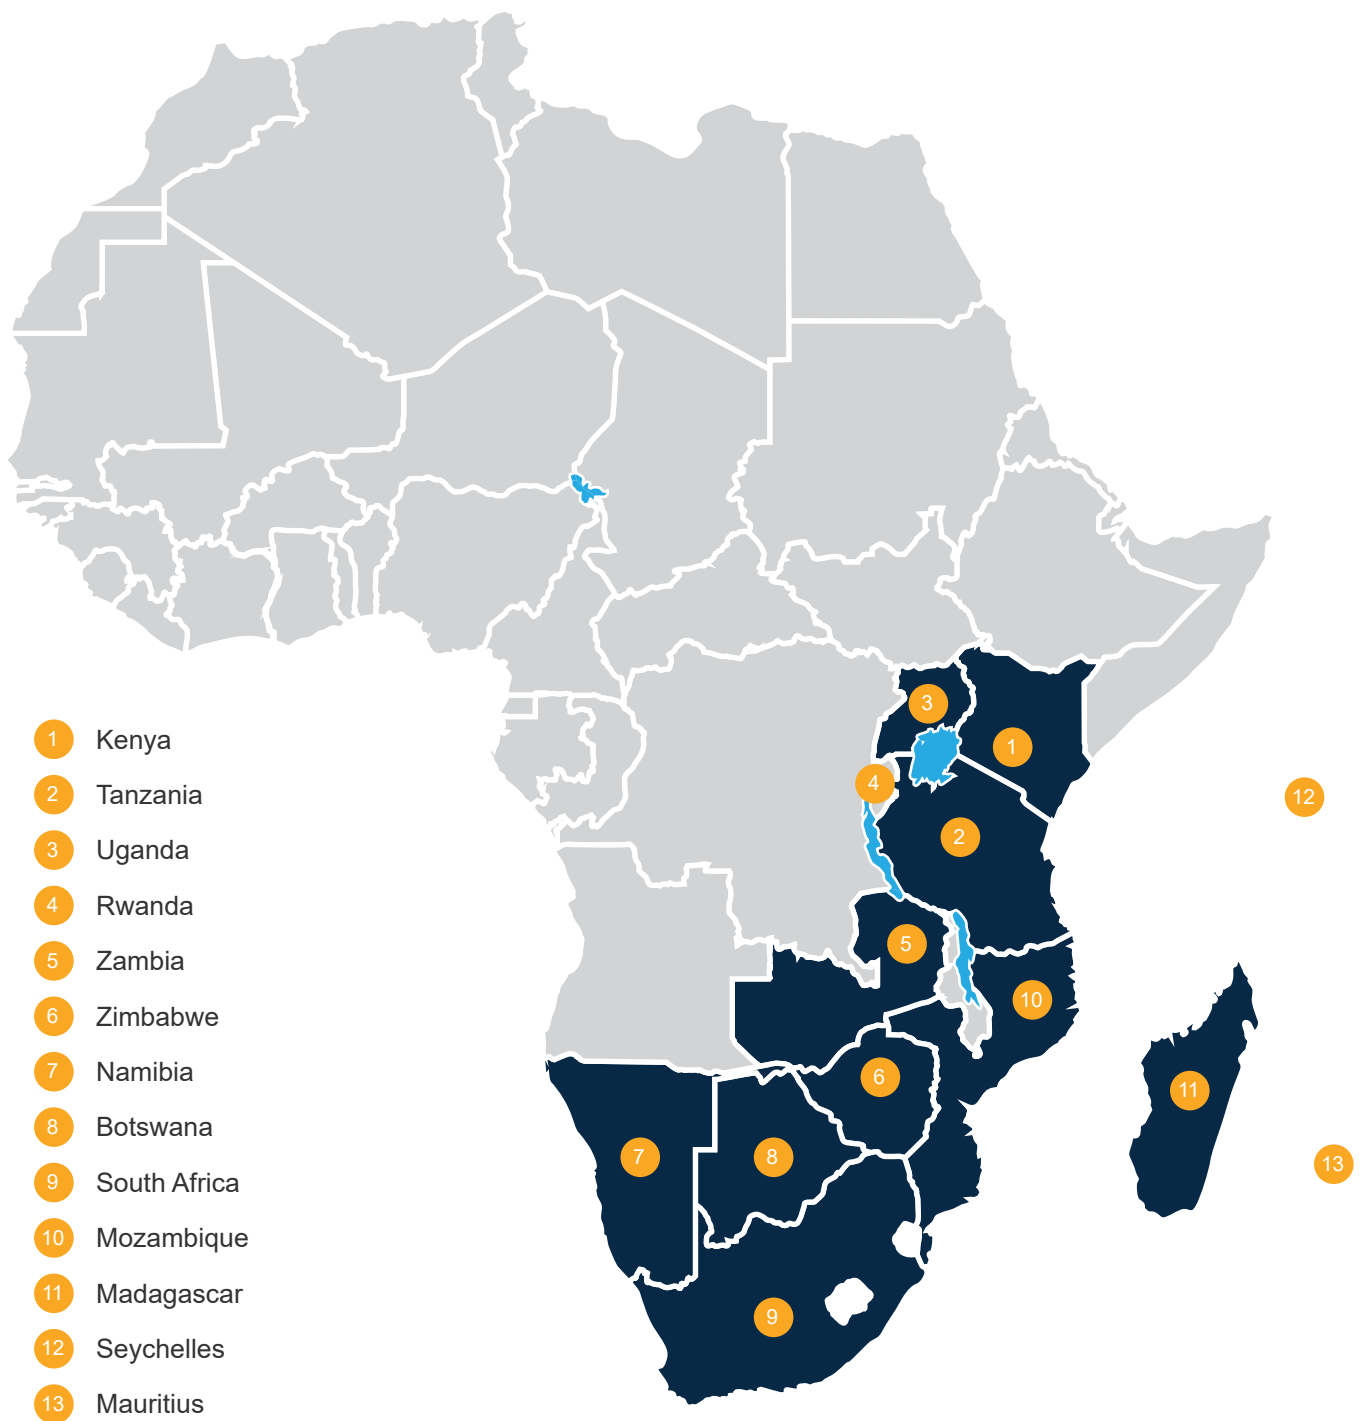

We have also included the quiet joys, the kind you won't find on every itinerary. A cooking class in Maputo or Malindi, biking through La Digue or Lake Mburo in Uganda, a hot air balloon over the desert at dawn. This is the side of Africa that's often missed, and it's the one we're most excited for you to discover. Our team has walked these paths, met the communities, tasted the food, and felt the heartbeat of each place, and we're here to help you do the same.

So as you flip through these pages, we hope they inspire you to travel deeper and dream bigger. Africa is vast, wild, and full of magic, and we are honored to be your guide. From all of us at Travel World Safaris, thank you for letting us share this journey with you.

## COUNTRY SPOTLIGHT

# Kenya

Kenya is more than wildlife and wide savannahs. Beyond the Big Five, you'll find a country rich in rhythm, tradition, and texture. From the coastal towns shaped by centuries of Swahili culture to the highland hills alive with tea and song, Kenya surprises those who look beyond the usual routes. It's a place where storytelling lives in markets, meals, music, and moments shared with strangers who quickly become friends.

## Experiences in Kenya

### CULTURAL TOURS

Step into the lives of the Maasai and Samburu, not as a spectator but as a guest. These cultural tours offer genuine moments, walking with warriors, joining in song, learning beadwork, and hearing the wisdom of elders. Far from the rehearsed and curated, the experience is quiet, grounding, and deeply human.

### TEA FARM TOURS

In the green highlands of Limuru and Kericho, tea tours take a lively twist. Hop on a bike and ride through neat rows of tea bushes, breathe in the misty air, and meet the hands behind your morning brew. It's fresh, scenic, and a perfect blend of movement and calm.

### DHOW SAILING

Sailing on a traditional dhow feels like slipping into a slower time. Along Kenya's coast, from Diani to Lamu, these wooden boats glide through warm waters as the wind catches their lateen sails. The sea sparkles, the sky glows, and you float in a rhythm that has danced across these shores for centuries.

## GIRAFFE CENTRE & SHELDRIK ELEPHANT ORPHANAGE

Two heartwarming experiences await. At the Giraffe Centre, you hand-feed towering Rothschild's giraffes. Nearby, at Sheldrick's, rescued baby elephants tumble in red dust and guzzle milk from giant bottles. Both places are windows into Kenya's deep care for its wildlife.

## COOKING WITH LOCAL FAMILIES

Cooking with Kenyan families opens a door to something real. In Nairobi, you shop in bustling markets, knead chapati dough, and stir pots while sharing stories. On the coast, the pace slows as coconut-rich Swahili dishes simmer under open skies. You come for the food, but stay for the warmth.

## KITESURFING LESSONS

Along Kenya's breezy coastlines, especially in Diani and Watamu, the ocean becomes a playground for the bold. Kitesurfing lessons here are taught by seasoned instructors who know the tides like clockwork. Beginners start on the sand, then graduate to gliding across turquoise waters, powered by nothing but wind and will. It's thrilling, freeing, and a beautiful way to meet the sea.

## NAIROBI & COASTAL NIGHTLIFE

In Nairobi, it's bold and electric, rooftop bars buzz with conversation, live bands fill the air with Afrobeat, and late-night joints serve street food with a side of dance. Down on the coast, the vibe shifts to something softer. In places like Mombasa and Diani, beach bars flicker with candlelight and reggae drifts over the waves. You'll find moonlit parties in the sand, Swahili drums echoing in the distance, and a slower, saltier rhythm that carries you through the night.

## VISIT RETETI ELEPHANT SANCTUARY

Reteti is a sanctuary in Namunyak Conservancy, Northern Kenya, owned and run by the Samburu community. They take in orphaned elephant calves aiming to release them back into the wild herds adjoining the sanctuary. Reteti is the result of a widely recognised and expanding grassroots conservation movement driven by communities across Northern Kenya – a movement that is growing new economies, transforming lives and conserving natural resources
